To whom it may concern,

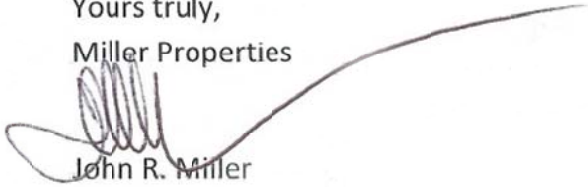

This letter serves as our company's endorsement of Roof Consulting Services Inc., the company owned and operated by Mr. Mark Fulfer. Our property management company located in Montreal, Canada own a 100,000 sq. ft., commercial property in Sherman, Texas. We mandated Mr. Fulfer to retrofit the entire property in 2010. His mandate included a complete re-roofing; the sandblasting and painting of the façade, window and joint caulking as well as miscellaneous deferred maintenance work.

Mark was prompt, efficient and knowledgeable about all aspects of the job. His role in selecting the appropriate trades to undertake and complete the work was instrumental in the success of the project. His pricing format, while unusual, was very effective in securing sharp pricing from reliable and proven trades. Mark's many years of experience enabled him to pre-select trades for the bidding process that were appropriate in size and experience for our project. Mark refers to this as "The Roofing Contractors Network"; a process he developed over the last 20 years to provide bids from pre-qualified and properly trained and insured Contractors.

Mark's remuneration from the trades in no way compromised our company's ability to exploit the competitive bidding process. Moreover, his bidding package was first rate and his job progress reports were timely, up-to-date and accepted by both the financing and insurance companies' involved in the project.

We would be more than happy to discuss our project should anyone require further information about Mark and his company. Please contact me at (514) 342-0040, ex 16.

Yours truly,
Miller Properties

John R. Miller
President
